

FJET *RF Series*

High-Speed Wide-Format Industrial Flatbed Printer

Featuring variable dots (5, 10 and 15pl) for true gray scale imaging at 1200 dpi, this printer can print 655 ft²/hour using the widest color gamut in wide format UV.

- ▶ Designed for both rigid and flexible materials up to four inches high, and eight feet by four feet in length and width
- ▶ Unidirectional or bidirectional printing.
- ▶ UV-curable, VOC-free inks provide the widest color gamut available in wide format with the use of CMYK + Lm + Lm + O + Varnish.
- ▶ Available with either a single or a double row of printheads, the The FJet RF series offers a practically endless number of printhead configurations.
