

FJET ZH Series

The Fastest Wide-Format Hybrid Printer in its class.

Featuring variable dots (4, 6, and 10pl) for true gray scale imaging at up to 3600 dpi, this printer can print 1530 ft²/hour using the widest color gamut in wide format UV.

- ▶ Designed for rigid, flexible, and roll materials up to two inches high
- ▶ Unidirectional or bidirectional printing.
- ▶ UV-curable, VOC-free inks provide the widest color gamut available in wide format with the use of CMYK + Lc + Lm + O + Varnish.
- ▶ Three different print widths available: 63", 98", and 126"
- ▶ Linear motor, magnetic rail system option
